"SAVED AT LAST!"

Is the Glorious News That Comes Concerning the Ill-Fated Danmark's Passengers—They are Landed at Philadelphia This Afternoon.

LONDON, April 22.—First Officer Rabem and forty-two of the crew of the steamer Danmark, arrived at Lisbon yesterday from the Azores, where there were landed by the steamer Missouri.

Mr. Rabem reports that during the severe storm that prevailed on the fourth, the Danmark broke her shaft as she rose on the crest of a wave and began to descend. The propellor was for the moment clear of the water, while revolving very rapidly. At this time the shaft in the tunnel broke near the aft end of a section. The jagged end of the portion of the section, connected with the engine, tore a hole in the bottom of the vessel. At this moment an engine pipe burst killing Engineer Kaas immediately, and loosening the iron plates at the side of the vessel causing another leak. The machinery was completely disabled and no attempt was made to mend the shaft as it would have been useless, even if possible.

At the time of the disaster the Danmark was 800 miles from the New Foundland banks. She at once fell into the trough of the sea and was as helpless as a log, the waves constantly breaking over her. Fortunately the after compartment of the vessel was closed and kept the water back. Measures were at once taken to get sail on the vessel. She was put before the wind and everything done that skillful seamanship could suggest to secure the safety of the vessel and passengers. Captain Knudsen kept her, as well as the gale would permit, in the path of the ocean steamers, and the steam pumps kept at work freeing the forward compartments of the water that had leaked through from the aft. Nothing could be done to clear the after compartments, as the water had free access through the immense rent in her stern.

All the rest of the day the sea was eagerly scanned for assistance, but not a vessel was sighted. On the 5th the glad hail was heard from the top that a sail was in sight. Signals of distress were hoisted and the steamer, which proved to be the Missouri, from London to Philadelphia, bore down on the Danmark. Captain Krudsen signalled the Missouri, and asked that his passengers be taken aboard, intending to attempt to proceed under sail, but the Missouri signalled back that it would be impossible to take so many on the Missouri, but offered to give the Danmark a tow.

The offer was accepted, and after much difficulty, a line was taken from the disabled steamer to the Missouri and the heavier chain cable was brought into use. The Missouri is a slow vessel and was heavily laden and progress was very slow. As soon as the course was changed from before the wind, the Danmark began to strain and the water forced its way in much faster than the pumps could free the vessel. On the 6th the case was seen to be hopeless. So much water was in the hold that she lost her bouyancy and every time she went down in the trough of the sea her passengers thought it would be her last plunge.

The Missouri was stopped and Captain Knudsen went aboard. After a short conference Captain Morritt, of the Missouri, agreed to jettison a portion of his cargo and thus allow room between decks for the 721 souls on board the Danmark. The work of jettisioning the cargo and transferring the passengers began simultaneoualy and before night all on the Danmark was on board the Missouri, and then the order was given to let go the cable. The passengers were each allowed to take a reasonable kit of clothing and personal effects, but it was necessarily limited and many lost heavily.

The nearest land was the Azores, and the prow of the Missouri was turned in that direction. Nothing of incident occurred to mark this part of the journey. On arriving at Azores the Missouri landed 320 passengers, Captain Knudsen, the first and second officers, three engineers and forty-two sailors. With 340 passengers and the rest of the crew, the Missouri, after provisioning, sailed for Philadelphia. Captain Knudsen and the three engineers sailed on the 14th inst. for London on board the Demara. Steamer Officer Raben left the Azores on the 15th inst.

PHILADELPHIA, Pa., April 22.—The steamer Missouri, and three hundred and forty of the Danmark's passengers on board, sailed from Delaware Breakwater at 7:30 o'clock this morning. She is due here at about 2:30 this afternoon.

The firm of Pear Wright & Son, to whom the Missouri is consigned, are making every arrangement to receive and provide for the Danmark's passengers, and will forward them to New York. As soon as it is obtainable, a list of those arriving on the Missouri will be sent to the office in New York of the Thingvalla company.

NEW YORK, April 22.—The passenger agent of the Thingralla line, left New York for Philadelphia this morning, to attend to the wants of the Danmark's passengers. Most of the vessel's immigrants, the agents said to-day, were bound for western states, and would be shipped direct from Philadelphia as soon as the Missouri arrived, if they desired to go forward at once.

Those of the passengers who had friends or relatives in New York, who had intended remaining here, would be supplied with tickets on the Pennsylvania railroad to-night, and will probably reach the city before midnight. Everything for the comfort and convenience of the ship-wrecked people, the agents say, would be supplied by the Thingvalla line's representatives, now in Philadelphia.

EASTER DAY.

The Resurrection of Our Lord is Observed in An Interesting Religious Way at the Different Churches.

Nature and religion seemed to coalesce yesterday in making the celebration of the Easter festival a glorious one, for it was a magnificent day, and in every church in the city grand Hosannahs rung that Christ is risen. You could see Easter gladness on every face and every heart was happy.

The glorious tidings of the resurrection were sounded again. Flowers opened for its welcome, the birds sang its praises, the trees awakened at its coming and all life seemed to suggest a dream of heaven, while believer and unbeliever gloried in the resurrection, for in it we may all have a share.

The churches followed the divine founder through His trial and conviction and execution and yesterday bore testimony of His supreme triumph over death. The celebration of the event was a fitting one and Catholics and Protestants united in it, for in all of the sanctuaries in the city beautiful and impressive services were held, the sermon of every pastor was appropriate to the day, while the choir and chorus swelled the grand anthem of praise and "heaven and earth, and rock and sea, with glad Hosannahs rung."

The Catholic church makes the greatest preparations for the Easter tide. It is an occasion of reunion. Holy communion is administered and everything is brighter than usual. Flowers adorn the altars, candles shed mellow light everywhere, the ceremonies are more impressive and varied, the singing suggests sublimity, the ritual is the grandest in the church calendar and it seems to ask, "Death, where is thy victory?"

At the Cathedral there was pontifical high mass, celebrated by Rt. Rev. Bishop Dwenger and the clergy of his household with all the pomp and grandeur of Roman custom.

Flower bedecked altars imparted a tender fragrance, the scene awoke the righteous emotions, while the sermon, by that brilliant young priest, the Rev. Father Delaney, inspired anew the highest motives.

He took his text from the announcement of the angel that Christ had risen and followed the triumph of the Savior in the Christian faith down through the ages, seasoning it with the truths, observations and admonitions that such a theme suggests. He pleaded eloquently for a better life, for Christian conduct, and pictured its heavenly reward with such earnestness and beauty as to win hearts to his cause.

The German Catholic churches were no less grand in their Easter observance and the customs were as beautifully followed at St. Mary's. St. Paul's, and St. Peters.

CHRIST HAS RISEN.

Rev. Dr. D. W. Moffatt preached a magnificent sermon at the First Presbyterian church in the morning upon the resurrection of the Christ. It was a masterly discussion of the subject and one that carried conviction to the large audience present. No fact in history, he said, is better authenticated than that Christ, after His crucifixion and burial, had arisen from the tomb and appeared at various times to his disciples.

That His body, after having been laid in the sepulcher, had disappeared even the Jews admitted. It could not have been stolen while the soldiers guarding it were asleep, for if they had slept on duty these soldiers would have been punished by death, for such was the Jewish law.

After His resurrection from death proof was abundant in the Scriptures that he rose again the third day and appeared to the disciples. He was seen by Cephas and then by the twelve apostles, and then by more than 500 witnesses, then by James and last of all by Paul, who up to that time had been persecuting the church. It was the risen Savior. They had heard Him talk; they had placed their hands in the gaping wounds He had received upon the cross, and they could not have been deceived, as the enemies of the Christian religion contend.

After His resurrection the apostles, who had been timid before, became bold and courageous and were inspired by new zeal to work for their Master. This fact, the doctor said, was proof of their faith in the resurrection, and the growth of the church through the early centuries was convincing that Christ had risen from the dead. Many other grand arguments were advanced by the speaker to prove his position and the sermon all the way through was a magnificent defence of the resurrection, which is the corner stone of the Christian religion.

OTHER SERVICES.

Rev. N. D. Shackelford conducted interesting Easter services at the Trinity M. E. church yesterday.

At the Simpson M. E. church yesterday Rev. D. Markle occupied the pulpit in the morning and Prof. Rogers in the evening.

The Wayne Street M. E. church had an interesting temperance meeting in the evening. Dr. B. M. Barns and others made addresses.

The theme of Rev. J. M. Boggs, at the Third Presbyterian church, in the morning, was "Christ's Resurrection." The sermon was a grand one. In the evening the young people held an interesting meeting, and the pastor spoke from the theme, "Easter and Immortality."

The services of the Second Presbyterian church at the City Y. M. C. A. rooms yesterday were of an interesting character, and Rev. Leeper, the brilliant pastor, preached a sermon appropriate to the day, at both the morning and evening service to large congregations.

The services at the Episcopal church were exceedingly inviting and interesting. The choir was reinforced and the music was a rare feature, while Rector Seabrease preached a most eloquent Easter Sunday sermon. The church edifice was never more enchanting than yesterday.

The services at the city department of the Young Men's Christian association in the afternoon were conducted by Rev. Van Slyke, the new pastor of the Berry Street M. E. church, while those at the railroad department were led by Mr. Myers, both of whom spoke interestingly and were followed by others with short talks.

The meeting of the Loyal Temperance Legion, at the W. C. T. U. headquarters, was largely attended. Pastor Northrop spoke to the young people and he did it in his own happy, cheering, instructive way. He was followed by a blackboard exercise from Miss Anna Philley and the meeting proved one of the best that has been held at that place.

Easter Sunday proved to be a most interesting and profitable day for the St. Paul M. E. church. The morning sermon by Rev. M. C. Cooper, the pastor, was impressive, touching and eloquent. The entire services of the day were marked by a spirit of joyous devotion, and were concluded at night by another thrilling and eloquent sermon from our presiding elder, Rev. A. E. Mahin. The ordinance of baptism was administered at the conclusion of each service both morning and evening.

Yesterday was a red letter day at the Grace Reformed church. In the morning the pastor, Rev. Zartman, preached a grand sermon, and received thirty-two new members into the church. In the evening the ladies' missionary society gave an interesting entertainment to a crowded auditorium. The exercises were varied, consisting of addresses, declamations, songs and responsive readings. Among the participants were: Misses Julia Wilson, Ada Durnell, Alice Connett, Mrs. A. K. Zartman and Mrs. Frank Studor, and Prof. H. B. Woolsey, Mr. Geo. O. Bradley and the Mission Band. The Easter offering was $10.15.

The Republican Family Jar Over the Postoffice.

The postoffice controversy continues in the republican ranks. Captain Dougall's candidacy was indorsed by ninety-six soldiers, at a meeting Saturday night, and another meeting of veterans is called for to-morrow evening to sustain Mr. Higgins and deny sympathy with the Dougall movement.

Judge R. S. Taylor, Mr. H. C. Hartman, Mr. Hugh Stewart and Capt. Frank Rawles left for Washington last night.

It is said that Judge Taylor will secure the appointment of Mr. Higgins tomorrow.

THE MAD STAMPEDE!

To Oklahoma Began Last Night—A Fight Ensues and Blood Flows.

PURCELL, I. T., April 22.—The mad stampede for Oklahoma began last night. The boomers could be held in check no longer. They are now crossing the Canadian river in crowds and rushing pell mell over the other side, and they are doing every thing in their power to stem the tide. Every possible contrivance is being used to cross the river, which is still swollen. The boomers made a dash upon the officers and some of them were successful in reaching the thicket. The rest were arrested and brought back to this city.

Some of the boomers have crossed the river three or four times, only to be caught and returned. An afficer who has just returned from Oklahoma, reports that five boomers were wounded and one killed in a fight with officers. The boomers ran into the brush; an Indian scout discovered them and they showed fight. Those who were not wounded or killed after the first volley went deeper into the timber. The scouts are again after them.

It was asserted here last night that the railroad bridges across the Canadian river would be burned before morning. A squad of cavalry has been stationed along the river. If the present uproar continues there will be few boomers in Purcell by noon.

LIGHTNING'S FREAK.

Several Persons Killed and Injured While at the supper Table.

DANBURY, Conn., April 22.—Several persons were killed and injured by lightning during a terrific thunder storm on Saturday night and Sunday morning. While the family of Lerinda Adams, at Trinity Lake, a few miles below this city, were at supper Saturday, the house was struck by lightning and the entire family rendered unconscious.

Mrs. Adams, when regaining consciousness, was horrified to find two of the family dead, and the rest terribly injured. The house also had been set on fire.

Noah Adams, a relative on a visit, was horribly burned. He must have been instantly killed by the bolt. He was a prominent citizen of Redding, and was eighty years of age. A daughter of Mr. Adams was also instantly killed and her body terribly mutilated by the lightning. The neighbors succeeded in rescuing the unfortunate persons from the burning building.

FOR MEN ONLY!

A POSITIVE [illegible] CURE [illegible]

Fort Wayne Sentinel.

E. A. K. HACKETT, Editor and Proprietor.

MONDAY, APRIL 22, 1889.

THERE is not the slightest taint of civil service blood in President Harrison's administration.

THE Indianapolis negroes are going to debate the question: Resolved, The color of the negro is more to the detriment than his condition." This knotty problem may require police surveillance during its solution.

THE committee on program for the forthcoming editorial convention of Northern Indiana, which holds its next session at Kendallville, in June, will meet in a few days, at the later place, to arrange for the meeting.

IT is an interesting fact that the governor of North Carolina and the governor of South Carolina will lodge at the same hotel, in New York City, during the centennial celebration. This will revive the familiar saying and drive New York to drink.

EDITOR J. W. BAKER, of the Columbia City *Commercial*; N. Headington, of Portland, and Gen. Tom Bennett, of Richmond, saw the president last week. They talked with him about the desirability of a slight recognition of their enthusiasm last fall.

A NEW YORK man picked up a package containing $31,000 dropped by a messenger and returned it to the bank. He was held until the money was counted to see if he had stolen any of it and finding it intact the cashier gave him $5 reward. It pays to be honest.

THE Chicago *Times*, in an argument in favor of closing saloons on Sunday because of the necessity of a day of rest for the well being of the human race, says: "To use leisure for carousing, to fire the blood with alcohol, to loaf and waste one's substance in the close and fetid air of a bar room is not recreation. It is physical damnation."

THE great improvement in the appearance of the streets of New York cleared of the unsightly telegraph poles, is a matter of comment by the press of that city and congratulation uptown. Not only are the vistas opened up and improved and visions of the sky enlarged, but the buildings look handsomer and the streets seem actually wider.

GROVER CLEVELAND and his charming wife are finding a welcome in New York society such as must be exceedingly pleasant to them. Quietly, unobtrusively and befitting the sturdy Americanism of his character, the ex president has taken up his daily work and gone about it just as he did when higher and more important duties claimed his attention.

THE SUPREME COURT DECISIONS.

The Indiana supreme court has rendered two decisions on the disputed laws passed by the last general assembly. One related to the act for the creation of a supreme court commission the members of which were to be named by the legislature. This act is held to be unconstitutional, the court saying: "The people have a right to the courts established by and under the constitution, and this constitutional right the legislature can neither alter nor abridge. Constitutional tribunals can not be changed by legislation and the supreme court is a constitutional tribunal. It can be composed of judges only, for only judges can constitute a court. No part of the judicial duties of that court can be assigned to any other person than one of the duly chosen judges. The legislature had no power to change its organization, nor can that body under the guise of creating commissioners divide the duties of the judges, nor authorize it to be done. Under our constitution, as amended, the legislature may establish courts, but it cannot destroy the constitutional courts—the circuit court and the supreme court—nor can it change their organization or redistribute their powers, for these courts owe their organization to the constitution, and as the constitution has ordained that they shall be organized so they shall be. Judicial power distributed by the constitution is beyond legislative control."

The declaration is at variance with a former opinion, for the supreme court did not decide the act of 1881 unconstitutional, and it was identically the same as the recent one, except that it provided for the appointing power to vest in the members of the supreme court and not in the legislature.

The other case involved the power of the general assembly to appoint the trustees of the state insane asylum. It appears, from the opinions of all the justices, that there is no decision upon the general question of the power to appoint, for the only point decided is that the general assembly may appoint to the particular offices involved in the cases before the court. The question of the general right to appoint is still an open one so far as the decision is concerned.

ENORMOUS FORTUNES.

Notwithstanding the enormous fortunes accumulated through the use of printer's ink, large sums of money are annually wasted in ineffectual and unremunerative advertising.

The merits of a really valuable commodity properly portrayed in the columns of an influential and widely read newspaper, like THE SENTINEL, will speedily become generally known and appreciated, while the returns reaped by the advertiser will be like those of the wise husbandman who "planted his seed in good ground, wherein it bore fruit and brought forth, some an hundred fold, some sixty, some thirty."

The wording of an advertisement is an all-important matter.

Clearness, attractiveness, brevity and sincerity must characterize any annoucement intended to catch the public eye and appeal to public confidence. An advertisement inserted in a London journal a few days ago brought instant and multitudinous replies accompanied by an almost unlimited supply of bank notes, simply because it touched the popular chord of nature which makes all mankind akin. Its simple pathos and self-evident truthfulness appealed to every heart.

The advertiser sought for a lost relative, and, giving his name, said: "I am ill and friendless. My last half crown is expended in paying for this advertisement. Write me at"—(giving the address). As already stated, nearly every one who read the announcement hastened to relieve the necessities of the sufferer—a real sufferer in this case, though many swindles are perpetrated in the divine name of charity.

Thus it is with a really meritorious commodity or preparation; if its virtues be properly and truthfully set forth in the public press, its success is prompt and certain.

On the other hand, the public is quick and unerring to detect deception and charlatanry; and, accordingly, no amount of "puffery" will force a vile nostrum into public esteem and patronage. Untold sums have been sunk in vain efforts to advertise into popularity so-called medical preparations which did not possess the virtues or properties claimed for them.

Valuable medicines, however, like Warner's Safe Cure and Warner's Log Cabin Sarsaparilla, carry their own best commendation in their power to cure the particular diseases for which they are a specific.

They require no labored panegyric to convince the people of their power and efficacy, for they have been tried and found perfect.

Nature's remedies, by their own intrinsic merits have conferred a lasting boon upon mankind, and they have secured an enviable reputation and unlimited sale throughout the civilized world.

A FRENCH physician claims to give an antidote which will forever prevent people from catching cold, but the law is going to investigate him.

If you ask your druggist for Pond's Extract and he offers an article which he represents "the same as Pond's Extract," do not believe him. It is not true. Nothing else is "as good as Pond's Extract." Pond's Extract is sold only in their own bottles, enclosed in buff wrapper and having landscape trade mark. Old bottles can not be refilled with Pond's Extract.

Mons. Salvini's Mammoth Novelties.

This attraction is announced as a wonderful thing, and will be at the People's theater all this week. The Charleston *News and Courier* of last Tuesday said:

"Professor Phillippe Salvini's combination of trick animals, which performed at the Academy of Music last night, is certainly one of the most amusing aggregations of zoological oddities ever seen in Charleston. It is simply great. The sagacity of the animals is really marvellous. It combines such a variety of excellence in this line that it will amuse both grown people and children. As to the latter, the prediction is made that they will actually go wild with delight."

HO FOR OKLAHOMA!

Via the Wabash Railway.

The president has announced by proclamation that the region popularly known as "The Oklahoma country" in the center of the Indian Territory, will be open for settlement by homestead entry, on April 22, 1889, at 12 o'clock, noon, and not before. The president's proclamation locates the land office for the new eastern district of Oklahoma at Guthrie, which point is reached from Fort Wayne with but one change of cars via the Wabash route. Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

For rates and dates apply at the office of
P. S. O'ROURKE,

A GIRL who had been troubled for a long time with insomnia was advised by a Swedish woman to wet a cloth in ice-cold water and lay it across her eyes. She did so, and was completely cured.

That Tired Feeling

That extreme tired feeling which is so distressing and often so unaccountable in the spring months, is entirely overcome by Hood's Sarsaparilla, which tones the whole body, purifies the blood, cures scrofula and all humors, cures dyspepsia, creates an appetite, rouses the torpid liver, braces up the nerves, and clears the mind. We solicit a comparison of Hood's Sarsaparilla with any other blood purifier in the market for purity, economy, strength, and medicinal merit.

Tired all the Time

"I had no appetite or strength, and felt tired all the time. I attributed my condition to scrofulous humor. I had tried several kinds of medicine without benefit. But as soon as I had taken half a bottle of Hood's Sarsaparilla, my appetite was restored, and my stomach felt better. I have now taken nearly three bottles, and I never was so well." MRS. JESSIE F. DOLBEARE, Pascoag, R. I.

Mrs. C. W. Marriott, Lowell, Mass., was completely cured of sick headache, which she had 18 years, by Hood's Sarsaparilla.

Everybody needs and should take a good spring medicine, for two reasons:

1st, The body is now more susceptible to benefit from medicine than at any other season.

2d, The impurities which have accumulated in the blood should be expelled, and the system given tone and strength, before the prostrating effects of warm weather are felt.

Hood's Sarsaparilla is the best spring medicine. A single trial will convince you of its superiority. Take it before it is too late.

The Best Spring Medicine

"I take Hood's Sarsaparilla for a spring medicine, and I find it just the thing. It tones up my system and makes me feel like a different man. My wife takes it for dyspepsia, and she derives great benefit from it. She says it is the best medicine she ever took." F. C. TURNER, Hook & Ladder No. 1, Boston, Mass.

"Last spring I was troubled with boils, caused by my blood being out of order. Two bottles of Hood's Sarsaparilla cured me. I can recommend it to all troubled with affections of the blood." J. SCHOCH, Peoria, Ill.

Spring Disorders

Shattered nerves, tired brain, impure blood, debilitated system, all are the natural outcome in the Spring. A medicine must be used, and nothing equals Paine's Celery Compound. We let others praise us—you cannot help believing a disinterested party.

Brigadier-General W. L. Greenleaf, Burlington, Vt., writes: "I have used Paine's Celery Compound on several occasions, and always with benefit. Last spring, being very much run down and debilitated, I commenced taking it. Two bottles made me feel like a new man. As a general tonic and spring medicine I do not know of its equal."

"I have used two bottles of your Paine's Celery Compound, and it has given entire satisfaction as an appetizer and blood purifier." T. L. BEAN, Watertown, Dakota.

Paine's Celery Compound

is prescribed by physicians, recommended by druggists, endorsed by ministers, praised by users, and guaranteed by the manufacturers as a spring medicine which will do all that is claimed for it. Use it this spring, and see how quickly it tones you up.

Purifies the Blood.

AGENTS WANTED [illegible]

Johann Hoff's Malt Extract,
THE BEST NUTRITIVE TONIC
FOR
Dyspepsia, Indigestion, Nursing Mothers, the Weak and Debilitated.

Put up in this style. I have used Johann Hoff's Malt Extract for the past five years in my private practice and have found it to be the best health restoring beverage and tonic nutritive known. I have found it especially good for persons convalescing from fever, in cases of dyspepsia, for mothers nursing, and in cases of weakly children, and also in lung troubles. My attention was drawn by the immense importation semi-monthly, and about a million of bottles imported by you have passed my inspection in the Custom House satisfactorily for the past five years.

Yours respectfully.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

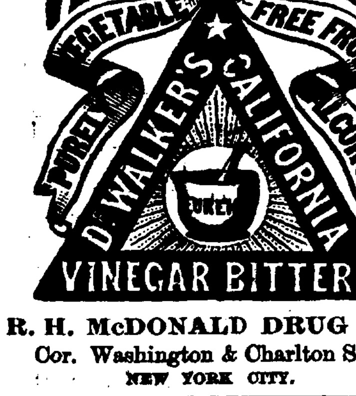

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with a fine, delicate flavoring.

You should read THE CHICAGO DAILY NEWS because it's *a family newspaper*. This is an age when everybody reads, and the paper you bring into your family should have something of value for all. The special interests of women are not overlooked in THE DAILY NEWS. And then you don't want to bring questionable reading matter into your family. You don't want to put indecent or immoral reading into the hands of your children. You will never make a mistake on this score if you take home THE DAILY NEWS. The newspapers are the great educators of this nation. The strength of the nation lies in the purity of its firesides.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day*.

BLUE MONDAY

Bobs Up With Its Old Time Bull Budget of News Around the Manufacturing Centers.

The Wabash pay car will be in the city to-morrow.

Frank Stier, of the Bass works, is on the sick list to-day.

George Myers, of the Bass moulding rooms, is on the sick list.

Patrick McCarty, fireman at the Pittsburg car shops, has resigned his position.

Fred Hensell has resigned his position at the Pittsburg blacksmith shops.

O. Elmer, formerly a switchman on the Pittsburg, will shortly don a silk tile.

Loan Monett, fireman on the Grand Rapids road, has changed his abiding place.

Wm. Klingman, of the Bass works, has returned to duty again after a sickness of several days.

The iron moulders are arranging for one of their pleasant hops to be given at Arion hall next Friday evening.

Jacob Rose has resigned his position at the Pittsburg blacksmith shops and will probably go to Cleveland, Ohio.

Martin Beamer, of the Olds wheel works, was at Antwerp, Ohio, yesterday spending the Sabbath with his best girl.

The house of Frank Swan, of the Bass works, took fire this morning and the fire department were called out there.

Foreman James Hewes, of the Pittsburg boiler shops, is again confined to his home with a serious attack of rheumatism.

Charlie Henderson has given up his trip to Oklahoma, and will accept a position as telegraph and telephone line repairer.

Tony Walker, of the Bass works, is taking a vacation. He is engaged in planting corn and pumpkins on his farm near town.

Anthony Spiedel, of the electric light works, has ordered a new frock coat. It is rumored that "Fatty" has matrimonial intentions.

John Ruck, carpenter at the new Pittsburg car shops, will wed an accomplished young lady, living in the eastern part of the city, next Thursday.

D. S. Quigley, foreman of the Grand Rapids and Indiana railroad blacksmith shops at Grand Rapids, was in the city yesterday, the guest of William Neizer.

B. J. Coyle, of Altoona, Pa., has taken a position at the Pittsburg machine shops. He has been employed at the Fort Wayne iron works for the last few weeks.

S. C. Rehrer, of the elecric light works, so the boys say, contemplates moving in the vicinity of the corner of Fairfield and Creighton avenues, in the near future.

August Hucklemyer, of the electric light works, has purchased a bran new bicycle and is now better prepared to make his frequent Sunday calls in the country.

The English built engine, which has been in service for some weeks on the Pennsylvania road proper, and which is run by an English engineer and an English fireman, is to be sent west for a trial.

Receiver McNulta, of the Wabash road, has notified his ticket agents that any agent who receives a commission on the sale of tickets for any road after May 1 will be discharged from the service of the company without delay.

Ed. and W. L. Benedict, conductors on the Pittsburg, Fort Wayne and Chicago railway, have purchased two very desirable building lots, in Beed's addition, on Creighton avenue, and will this fall erect a handsome cottage thereon.

The Olds wheel works have posted up in a conspicuous place, at their establighment, this notice: "This shop will, commencing with Monday, April 22, start up at five minutes before 7 o'clock a. m., and at five minutes before 1 o'clock p. m."

Charley Taylor, machinist at the Bass works, has returned to duty again after a few days' absence. It was generally supposed that Charley had been out fishing, but the fact that no big fish stories have been told leads the boys to suppose that that was not the reason of his vacation.

There has never been a time when locomotives could be purchased at as low figures as now. The fine engines of 105,000 pounds weight, which are being built at the Pittsburg locomotive works, cost but $9,000, against $10,200 three years ago. The new passenger engine of the same make, weighing 91,000 pounds, cost but $8,700.

The Wabash has just completed arrangements with the Michigan Central and New York Central railroads, which will enable it to run through sleepers to New York from St. Louis via Toledo and Niagara Falls at as fast time as is now being made by the Pennsylvania and other short lines between St. Louis and New York. The arrangements will go into effect May 12.

It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

SHE'S A HUMMER!

The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.

The proprietor of the New York livery stable sent a young man out last night, with instructions to look for a horse driven by a party of young fellows who were drinking and abused the animal. The fellow found the horse and was driving off when the men rushed out of a saloon and gave him a sound whipping.

IN MEMORIAM.

The Order of the Funeral Services of Miss Nellie Schroeder.

The first of the service was an anthem, rendered by a quartet composed of the Misses Ida Kellogg and Lottie Mendenhall, of Fort Wayne, and Professor Clippinger and Walter Carver, of Chicago. It was most sublime and appropriate, entitled, "I Cannot Always Trace the Way." After this Rev. Van Slike, of the Berry street Methodist church, offered an earnest, eloquent and touching prayer. After the hymn, entitled, "Asleep in Jesus," Rev. D. C. Woolpert, of the Warsaw Methodist church, read the 90th Psalm.

A chant was then chanted, entitled, "The Circle is Broken," which quickened the sympathizing pulse of the many friends. The sermon, by Rev. D. C. Woolpert, based on the words found in Revelations 21, 1, "And there was no sea," was impressive and well adapted to the subject.

On the conclusion of the service the quartet sang the hymn, "God Be With You Till We Meet Again."

The remains were interred in the Lindenwood cemetery. The pall-bearers were as follows: Messrs. Seaman, Kyle, Miller, Gellett, Leonard and Paris W. Ashcraft.

City Y. M. C. A. Notes.

There were seventy-four baths taken at the City Y. M. C. A. Saturday. They are being well patronized this nice weather.

The meetings are well attended, especially the noonday prayer meeting. Come and take part in them, and see what benefit you will receive spirtually.

Mr. Wyman, a commercial man, lead the noonday prayer meeting to-day. He gave some good points concerning traveling men and their work for Christ.

The World Ought to Know It.

The world ought to know what S. S. S. has done for me in the cure of a malignant cancer, which was so bad as to be considered incurable by the physicians in Chicago, where I went to be treated. The hospital surgeons gave me up, saying they could do nothing for me. One of my neighbors sent me a copy of an advertisement cut from a paper in regard to Swift's Specific, and I began taking it. I got relief from the first few doses; the poison was gradually forced out of my system, and I was soon cured sound and well. It is now ten months since I quit taking S. S. S. and I have had no sign of return of the dreadful disease.

"SAVED AT LAST!"

In the Glorious News That Comes Concerning the Ill-Fated Denmark's Passengers—They are Landed at Philadelphia This Afternoon.

LONDON, April 22.—First Officer Rabem and forty-two of the crew of the steamer Danmark, arrived at Lisbon yesterday from the Azores, where there were landed by the steamer Missouri.

Mr. Rabem reports that during the severe storm that prevailed on the fourth, the Danmark broke her shaft as she rose on the crest of a wave and began to descend. The propellor was for the moment clear of the water, while revolving very rapidly. At this time the shaft in the tunnel broke near the aft end of a section. The jagged end of the portion of the section, connected with the engine, tore a hole in the bottom of the vessel. At this moment an engine pipe burst killing Engineer Kaas immediately, and loosening the iron plates at the side of the vessel causing another leak. The machinery was completely disabled and no attempt was made to mend the shaft as it would have been useless, even if possible.

At the time of the disaster the Danmark was 800 miles from the New Foundland banks. She at once fell into the trough of the sea and was as helpless as a log, the waves constantly breaking over her. Fortunately the after compartment of the vessel was closed and kept the water back. Measures were at once taken to get sail on the vessel. She was put before the wind and everything done that skillful seamanship could suggest to secure the safety of the vessel and passengers. Captain Knudsen kept her, as well as the gale would permit, in the path of the ocean steamers, and the steam pumps kept at work freeing the forward compartments of the water that had leaked through from the aft. Nothing could be done to clear the after compartments, as the water had free access through the immense rent in her stern.

All the rest of the day the sea was eagerly scanned for assistance, but not a vessel was sighted. On the 5th the glad hail was heard from the top that a sail was in sight. Signals of distress were hoisted and the steamer, which proved to be the Missouri, from London to Philadelphia, bore down on the Danmark. Captain Krudsen signalled the Missouri, and asked that his passengers be taken aboard, intending to attempt to proceed under sail, but the Missouri signalled back that it would be impossible to take so many on the Missouri, but offered to give the Danmark a tow.

The offer was accepted, and after much difficulty, a line was taken from the disabled steamer to the Missouri and the heavier chain cable was brought into use. The Missouri is a slow vessel and was heavily laden and progress was very slow. As soon as the course was changed from before the wind, the Danmark began to strain and the water forced its way in much faster than the pumps could free the vessel. On the 6th the case was seen to be hopeless. So much water was in the hold that she lost her buoyancy and every time she went down in the trough of the sea her passengers thought it would be her last plunge.

The Missouri was stopped and Captain Knudsen went aboard. After a short conference Captain Morritt, of the Missouri, agreed to jettison a portion of his cargo and thus allow room between decks for the 721 souls on board the Danmark. The work of jettisoning the cargo and transferring the passengers began simultaneously and before night all on the Danmark was on board the Missouri, and then the order was given to let go the cable. The passengers were each allowed to take a reasonable kit of clothing and personal effects, but it was necessarily limited and many lost heavily.

The nearest land was the Azores, and the prow of the Missouri was turned in that direction. Nothing of incident occurred to mark this part of the journey. On arriving at Azores the Missouri landed 320 passengers, Captain Knudsen, the first and second officers, three engineers and forty-two sailors. With 340 passengers and the rest of the crew, the Missouri, after provisioning, sailed for Philadelphia. Captain Knudsen and the three engineers sailed on the 14th inst. for London on board the Domara. Steamer Officer Rabem left the Azores on the 15th inst.

PHILADELPHIA, Pa., April 22.—The steamer Missouri, and three hundred and forty of the Danmark's passengers on board, sailed from Delaware Breakwater at 7:30 o'clock, this morning. She is due here at about 3:30 this afternoon. The firm of Pear Wright & Son, to whom the Missouri is consigned, are making every arrangement to receive and provide for the Danmark's passengers, and will forward them to New York. As soon as it is obtainable, a list of those arriving on the Missouri will be sent to the office in New York of the Thingvalla company.

NEW YORK, April 22.—The passenger agent of the Thingvalla line, left New York for Philadelphia this morning, to attend to the wants of the Danmark's passengers. Most of the vessel's immigrants, the agents said to-day, were bound for western states, and would be shipped direct from Philadelphia as soon as the Missouri arrived, if they desired to go forward at once.

Those of the passengers who had friends or relatives in New York, who had intended remaining here, would be supplied with tickets on the Pennsylvania railroad to-night, and will probably reach the city before midnight. Everything for the comfort and convenience of the ship-wrecked people, the agents say, would be supplied by the Thingvalla line's representatives, now in Philadelphia.

EASTER DAY.

The Resurrection of our Lord is Observed in An Interesting Religious Way at the Different Churches.

Nature and religion seemed to coalesce yesterday in making the celebration of the Easter festival a glorious one, for it was a magnificent day, and in every church in the city grand Hosannahs rung that Christ is risen. You could see Easter gladness on every face and every heart was happy.

The glorious tidings of the resurrection were sounded again. Flowers opened for its welcome, the birds sang its praises, the trees awakened at its coming and all life seemed to suggest a dream of heaven, while believer and unbeliever gloried in the resurrection, for in it we may all have a share.

The churches followed the divine founder through His trial and conviction and execution and yesterday bore testimony of His supreme triumph over death. The celebration of the event was a fitting one and Catholics and Protestants united in it, for in all of the sanctuaries in the city beautiful and impressive services were held, the sermon of every pastor was appropriate to the day, while the choir and chorus swelled the grand anthem of praise and "heaven and earth, and rock and sea, with glad Hosannahs rung."

The Catholic church makes the greatest preparations for the Easter tide. It is an occasion of reunion. Holy communion is administered and everything is brighter than usual. Flowers adorn the altars, candles shed mellow light everywhere, the ceremonies are more impressive and varied, the singing suggests sublimity, the ritual is the grandest in the church calendar and it seems to ask, "Death, where is thy victory!"

At the Cathedral there was pontifical high mass, celebrated by Rt. Rev. Bishop Dwenger and the clergy of his household with all the pomp and grandeur of Roman custom.

Flower bedecked altars imparted a tender fragrance, the scene awoke the righteous emotions, while the sermon, by that brilliant young priest, the Rev. Father Delaney, inspired anew the highest motives.

He took his text from the announcement of the angel that Christ had risen and followed the triumph of the Savior in the Christian faith down through the ages, reasoning it with the truths, observations and admonitions that such a theme suggests. He pleaded eloquently for a better life, for Christian conduct, and pictured its heavenly reward with such earnestness and beauty as to win hearts to his cause.

The German Catholic churches were no less grand in their Easter observance and the customs were as beautifully followed at St. Mary's, St. Paul's, and St. Peters.

CHRIST HAS RISEN.

Rev. Dr. D. W. Moffatt preached a magnificent sermon at the First Presbyterian church in the morning upon the resurrection of the Christ. It was a masterly discussion of the subject and one that carried conviction to the large audience present. No fact in history, he said, is better authenticated than that Christ, after His crucifixion and burial, had arisen from the tomb and appeared at various times to his disciples.

That His body, after having been laid in the sepulcher, had disappeared even the Jews admitted. It could not have been stolen while the soldiers guarding it were asleep, for if they had slept on duty these soldiers would have been punished by death, for such was the Jewish law.

After His resurrection from death proof was abundant in the Scriptures that he rose again the third day and appeared to the disciples. He was seen by Cephas and then by the twelve apostles, and then by more than 500 witnesses, then by James and last of all by Paul, who up to that time had been persecuting the church. It was the risen Savior. They had heard Him talk; they had placed their hands in the gaping wounds He had received upon the cross, and they could not have been deceived, as the enemies of the Christian religion contend.

After His resurrection the apostles, who had been timid before, became bold and courageous and were inspired by new zeal to work for their Master. This fact, the doctor said, was proof of their faith in the resurrection, and the growth of the church through the early centuries was convincing that Christ had risen from the dead. Many other grand arguments were advanced by the speaker to prove his position and the sermon all the way through was a magnificent defense of the resurrection, which is the corner stone of the Christian religion.

OTHER SERVICES.

Rev. N. D. Shuckelford conducted interesting Easter services at the Trinity M. E. church yesterday.

At the Simpson M. E. church yesterday Rev. D. Markle occupied the pulpit in the morning and Prof. Rogers in the evening.

The Wayne Street M. E. church had an interesting temperance meeting in the evening. Dr. R. M. Barns and others made addresses.

The theme of Rev. J. M. Boggs, at the Third Presbyterian church, in the morning, was "Christ's Resurrection." The sermon was a grand one. In the evening the young people held an interesting meeting, and the pastor spoke from the theme, "Easter and Immortality."

The services of the Second Presbyterian church at the City Y. M. C. A. rooms yesterday were of an interesting character, and Rev. Leeper, the brilliant pastor, preached a sermon appropriate to the day, at both the morning and evening service to large congregations.

The services at the Episcopal church were exceedingly inviting and interesting. The choir was reinforced and the music was a rare feature, while Rector Seabrease preached a most eloquent Easter Sunday sermon. The church edifice was never more enchanting than yesterday.

The services at the city department of the Young Men's Christian association in the afternoon were conducted by Rev. Van Slyke, the new pastor of the Berry Street M. E. church, while those at the railroad department were led by Mr. Myers, both of whom spoke interestingly and were followed by others with short talks.

The meeting of the Loyal Temperance Legion, at the W. C. T. U. headquarters, was largely attended. Pastor Northrup spoke to the young people and he did it in his own happy, cheering, instructive way. He was followed by a blackboard exercise from Miss Annas Philley and the meeting proved one of the best that has been held at that place.

Easter Sunday proved to be a most interesting and profitable day for the St. Paul M. E. church. The morning sermon by Rev. M. C. Cooper, the pastor, was impressive, touching and eloquent. The entire services of the day were marked by a spirit of joyous devotion, and were concluded at night by another thrilling and eloquent sermon from our presiding elder, Rev. A. E. Mahin. The ordinance of baptism was administered at the conclusion of each service both morning and evening.

Yesterday was a red letter day at the Grace Reformed church. In the morning the pastor, Rev. Zartman, preached a grand sermon, and received thirty-two new members into the church. In the evening the ladies' missionary society gave an interesting entertainment to a crowded auditorium. The exercises were varied, consisting of addresses, declamations, songs and responsive readings. Among the participants were: Misses Julia Wilson, Ada Darnell, Alice Connett, Mrs. A. K. Zartman and Mrs. Frank Studor, and Prof. H. B. Woolsey, Mr. Geo. O. Bradley and the Mission Band. The Easter offering was $10.15.

The Republican Family Jar Over the Postoffice.

The postoffice controversy continues in the republican ranks. Captain Dougall's candidacy was indorsed by ninety-six soldiers, at a meeting Saturday night, and another meeting of veterans is called for to-morrow evening to sustain Mr. Higgins and deny sympathy with the Dougall movement.

Judge R. S. Taylor, Mr. H. C. Hartman, Mr. Hugh Stewart and Capt. Frank Rawles left for Washington last night.

It is said that Judge Taylor will secure the appointment of Mr. Higgins to-morrow.

THE MAD STAMPEDE!

To Oklahoma Began Last Night—A Fight Ensues and Blood Flows.

PURCELL, I. T., April 22.—The mad stampede for Oklahoma began last night. The boomers could be held in check no longer. They are now crossing the Canadian river in crowds and rushing pell mell over the other side, and they are doing every thing in their power to stem the tide. Every possible contrivance is being used to cross the river, which is still swollen. The boomers made a dash upon the officers and some of them were successful in reaching the thicket. The rest were arrested and brought back to this city.

Some of the boomers have crossed the river three or four times, only to be caught and returned. An officer who has just returned from Oklahoma, reports that five boomers were wounded and one killed in a fight with officers. The boomers ran into the brush; an Indian scout discovered them and they showed fight. Those who were not wounded or killed after the first volley went deeper into the timber. The scouts are again after them.

It was asserted here last night that the railroad bridges across the Canadian river would be burned before morning. A squad of cavalry has been stationed along the river. If the present uproar continues there will be few boomers in Purcell by noon.

LIGHTNING'S WREAK.

Several Persons Killed and Injured While at the supper Table.

DANBURY, Conn., April 22.—Several persons were killed and injured by lightning during a terrific thunder storm on Saturday night and Sunday morning. While the family of Lerinda Adams, at Trinity Lake, a few miles below this city, were at supper Saturday, the house was struck by lightning and the entire family rendered unconscious.

Mrs. Adams, when regaining consciousness, was horrified to find two of the family dead, and the rest terribly injured. The house also had been set on fire.

Noah Adams, a relative on a visit, was horribly burned. He must have been instantly killed by the bolt. He was a prominent citizen of Redding, and was eighty years of age. A daughter of Mr. Adams was also instantly killed and her body terribly mutilated by the lightning. The neighbors succeeded in rescuing the unfortunate persons from the burning building.

MONDAY, APRIL 22, 1889.

THERE is not the slightest taint of civil service blood in President Harrison's administration.

THE Indianapolis negroes are going to debate the question: Resolved, The color of the negro is more to the detriment than his condition." This knotty problem may require police surveillance during its solution.

THE committee on program for the forthcoming editorial convention of Northern Indiana, which holds its next session at Kendallville, in June, will meet in a few days, at the later place, to arrange for the meeting.

IT is an interesting fact that the governor of North Carolina and the governor of South Carolina will lodge at the same hotel, in New York City, during the centennial celebration. This will revive the familiar saying and drive New York to drink.

EDITOR J. W. BAKER, of the Columbia City *Commercial*; N. Headington, of Portland, and Gen. Tom Bennett, of Richmond, saw the president last week. They talked with him about the desirability of a slight recognition of their enthusiasm last fall.

A NEW YORK man picked up a package containing $31,000 dropped by a messenger and returned it to the bank. He was held until the money was counted to see if he had stolen any of it and finding it intact the cashier gave him $5 reward. It pays to be honest.

THE Chicago *Times*, in an argument in favor of closing saloons on Sunday because of the necessity of a day of rest for the well being of the human race, says: "To use leisure for carousing, to fire the blood with alcohol, to loaf and waste one's substance in the close and fetid air of a bar room is not recreation. It is physical damnation."

THE great improvement in the appearance of the streets of New York cleared of the unsightly telegraph poles, is a matter of comment by the press of that city and congratulation uptown. Not only are the vistas opened up and improved and visions of the sky enlarged, but the buildings look handsomer and the streets seem actually wider.

GROVER CLEVELAND and his charming wife are finding a welcome in New York society such as must be exceedingly pleasant to them. Quietly, unobtrusively and befitting the sturdy Americanism of his character, the ex-president has taken up his daily work and gone about it just as he did when higher and more important duties claimed his attention.

THE SUPREME COURT DECISIONS.

The Indiana supreme court has rendered two decisions on the disputed laws passed by the last general assembly. One related to the act for the creation of a supreme court commission the members of which were to be named by the legislature. This act is held to be unconstitutional, the court saying: "The people have a right to the courts established by and under the constitution, and this constitutional right the legislature can neither alter nor abridge. Constitutional tribunals can not be changed by legislation and the supreme court is a constitutional tribunal. It can be composed of judges only, for only judges can constitute a court. No part of the judicial duties of that court can be assigned to any other person than one of the duly chosen judges. The legislature had no power to change its organization, nor can that body under the guise of creating commissioners divide the duties of the judges, nor authorize it to be done. Under our constitution, as amended, the legislature may establish courts, but it cannot destroy the constitutional courts—the circuit court and the supreme court—nor can it change their organization or redistribute their powers, for these courts owe their organization to the constitution, and as the constitution has ordained that they shall be organized so they shall be. Judicial power distributed by the constitution is beyond legislative control."

The declaration is at variance with a former opinion, for the supreme court did not decide the act of 1881 unconstitutional, and it was identically the same as the recent one, except that it provided for the appointing power to vest in the members of the supreme court and not in the legislature.

The other case involved the power of the general assembly to appoint the trustees of the state insane asylum. It appears, from the opinions of all the justices, that there is no decision upon the general question of the power to appoint, for the only point decided is that the general assembly may appoint to the particular offices involved in the cases before the court. The question of the general right to appoint is still an open one so far as the decision is concerned.

Boils, pimples, hives, ringworms, tetter, and all other manifestations of impure blood are cured by Hood's Sarsaparilla.

ENORMOUS FORTUNES.

Notwithstanding the enormous fortunes accumulated through the use of printer's ink, large sums of money are annually wasted in ineffectual and unremunerative advertising.

The merits of a really valuable commodity properly portrayed in the columns of an influential and widely read newspaper, like THE SENTINEL, will speedily become generally known and appreciated, while the returns reaped by the advertiser will be like those of the wise husbandman who "planted his seed in good ground, wherein it bore fruit and brought forth, some an hundred fold, some sixty, some thirty."

The wording of an advertisement is an all-important matter.

Clearness, attractiveness, brevity and sincerity must characterize any announcement intended to catch the public eye and appeal to public confidence. An advertisement inserted in a London journal a few days ago brought instant and multitudinous replies accompanied by an almost unlimited supply of bank notes, simply because it touched the popular chord of nature which makes all mankind akin. Its simple pathos and self-evident truthfulness appealed to every heart.

The advertiser sought for a lost relative, and, giving his name, said: "I am ill and friendless. My last half crown is expended in paying for this advertisement. Write me at"—(giving the address). As already stated, nearly every one who read the announcement hastened to relieve the necessities of the sufferer—a real sufferer in this case, though many swindles are perpetrated in the divine name of charity.

Thus it is with a really meritorious commodity or preparation; if its virtues be properly and truthfully set forth in the public press, its success is prompt and certain.

On the other hand, the public is quick and unerring to detect deception and charlatanry; and, accordingly, no amount of "puffery" will force a vile nostrum into public esteem and patronage. Untold sums have been sunk in vain efforts to advertise into popularity so-called medical preparations which did not possess the virtues or properties claimed for them.

Valuable medicines, however, like Warner's Safe Cure and Warner's Log Cabin Sarsaparilla, carry their own best commendation in their power to cure the particular diseases for which they are a specific.

They require no labored panegyric to convince the people of their power and efficacy, for they have been tried and found perfect.

Nature's remedies, by their own intrinsic merits have conferred a lasting boon upon mankind, and they have secured an enviable reputation and unlimited sale throughout the civilized world.

A FRENCH physician claims to give an antidote which will forever prevent people from catching cold, but the law is going to investigate him.

Mons. Salvini's Mammoth Novelties.

This attraction is announced as a wonderful thing, and will be at the People's theater all this week. The Charleston *News and Courier* of last Tuesday said:

"Professor Phillippo Salvini's combination of trick animals, which performed at the Academy of Music last night, is certainly one of the most amusing aggregations of zoological oddities ever seen in Charleston. It is simply great. The sagacity of the animals is really marvellous. It combines such a variety of excellence in this line that it will amuse both grown people and children. As to the latter, the prediction is made that they will actually go wild with delight."

HO FOR OKLAHOMA!

Via the Wabash Railway.

The president has announced by proclamation that the region popularly known as "The Oklahoma country" in the center of the Indian Territory, will be open for settlement by homestead entry, on April 22, 1889, at 12 o'clock, noon, and not before. The president's proclamation locates the land office for the new eastern district of Oklahoma at Guthrie, which point is reached from Fort Wayne with but one change of cars via the Wabash route. Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

For rates and dates apply at the office of P. S. O'ROURKE,
15-tf Superintendent.

Ask for Baker's Famous Headache Specific. It never fails to give relief. Sold and guaranteed by Thieme & Gross.

A GIRL who had been troubled for a long time with insomnia was advised by a Swedish woman to wet a cloth in ice-cold water and lay it across her eyes. She did so, and was completely cured.

That Tired Feeling

That extreme tired feeling which is so distressing and often so unaccountable in the spring months, is entirely overcome by Hood's Sarsaparilla, which tones the whole body, purifies the blood, cures scrofula and all humors, cures dyspepsia, creates an appetite, rouses the torpid liver, braces up the nerves, and clears the mind. We solicit a comparison of Hood's Sarsaparilla with any other blood purifier in the market for purity, economy, strength, and medicinal merit.

Tired all the Time

"I had no appetite or strength, and felt tired all the time. I attributed my condition to scrofulous humor. I had tried several kinds of medicine without benefit. But as soon as I had taken half a bottle of Hood's Sarsaparilla, my appetite was restored, and my stomach felt better. I have now taken nearly three bottles, and I never was so well." MRS. JESSIE F. DOLBEARE, Pascoag, R. I.

Mrs. G. W. Marriott, Lowell, Mass., was completely cured of sick headache, which she had 15 years, by Hood's Sarsaparilla.

Everybody needs and should take a good spring medicine, for two reasons:

1st, The body is now more susceptible to benefit from medicine than at any other season.

2d, The impurities which have accumulated in the blood should be expelled, and the system given tone and strength, before the prostrating effects of warm weather are felt.

Hood's Sarsaparilla is the best spring medicine. A single trial will convince you of its superiority. Take it before it is too late.

The Best Spring Medicine

"I take Hood's Sarsaparilla for a spring medicine, and I find it just the thing. It tones up my system and makes me feel like a different man. My wife takes it for dyspepsia, and she derives great benefit from it. She says it is the best medicine she ever took." F. C. TURNER, Hook & Ladder No. 1, Boston, Mass.

"Last spring I was troubled with boils, caused by my blood being out of order. Two bottles of Hood's Sarsaparilla cured me. I can recommend it to all troubled with affections of the blood." J. SCHOCH, Peoria, Ill.

Spring Disorders

Shattered nerves, tired brain, impure blood, debilitated system, all are the natural outcome in the Spring. A medicine must be used, and nothing equals Paine's Celery Compound. We let others praise us—you cannot help believing a disinterested party.

Brigadier-General W. L. Greenleaf, Burlington, Vt., writes: "I have used Paine's Celery Compound on several occasions and always with benefit. Last Spring, being very much run down and debilitated, I commenced taking it. Two bottles made me feel like a new man. As a general tonic and spring medicine I do not know of its equal."

Johann Hoff's Malt Extract,

THE BEST NUTRITIVE TONIC

FOR

Dyspepsia, Indigestion, Nursing Mothers, the Weak and Debilitated.

Put up in this style of Bottle only. Malt Extract for the past five years in my private practice and have found it to be the best health restoring beverage and tonic nutritive known. I have found it especially good for persons convalescing from fever, in cases of dyspepsia, for mothers nursing, and in cases of weakly children, and also in lung troubles. My attention was drawn by the immense importation semi-monthly, and about a million of bottles imported by you have passed my inspection in the Custom House satisfactorily for the past five years.

Yours respectfully,

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

These, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health keeper, life-preserver and disease preventive that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

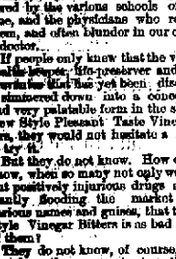

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with a fine, delicate flavoring.

Send for a beautiful book free.

FIFTH POINT

You should read THE CHICAGO DAILY NEWS because it's a family newspaper. That is the age when everybody reads, and the paper you bring into your family should have something of value for all. The special interests of women are carefully looked in THE DAILY NEWS. And then you don't want to bring questionable reading matter into your family. You don't want to put indecent or immoral reading into the hands of your children. You will never make a mistake on this score if you take home THE DAILY NEWS. The newspapers are the great educators of this nation. The purity of the home depends in a large measure upon the purity of its literature.

MONDAY, APRIL 22, 1889.

BLUE MONDAY

Rose Up With Its Old Time Dull Budget of News Around the Manufacturing Centers.

The Wabash pay car will be in the city to-morrow.

Frank Stier, of the Bass works, is on the sick list to-day.

George Myers, of the Bass moulding rooms, is on the sick list.

Patrick McCarty, fireman at the Pittsburg car shops, has resigned his position.

Fred Hensell has resigned his position at the Pittsburg blacksmith shops.

O. Elmer, formerly a switchman on the Pittsburg, will shortly don a silk tile.

Loan Monett, fireman on the Grand Rapids road, has changed his abiding place.

Wm. Klingman, of the Bass works, has returned to duty again after a sickness of several days.

The iron moulders are arranging for one of their pleasant hops to be given at Arion hall next Friday evening.

Jacob Rose has resigned his position at the Pittsburg blacksmith shops and will probably go to Cleveland, Ohio.

Martin Beamer, of the Olds wheel works, was at Antwerp, Ohio, yesterday spending the Sabbath with his best girl.

The house of Frank Swan, of the Bass works, took fire this morning and the fire department were called out there.

Foreman James Howes, of the Pittsburg boiler shops, is again confined to his home with a serious attack of rheumatism.

Charlie Henderson has given up his trip to Oklahoma, and will accept a position as telegraph and telephone line repairer.

Tony Walker, of the Bass works, is taking a vacation. He is engaged in planting corn and pumpkins on his farm near town.

Anthony Spindel, of the electric light works, has ordered a new frock coat. It is rumored that "Fatty" has matrimonial intentions.

John Rusk, carpenter at the new Pittsburg car shops, will wed an accomplished young lady, living in the eastern part of the city, next Thursday.

D. S. Quigley, foreman of the Grand Rapids and Indiana railroad blacksmith shops at Grand Rapids, was in the city yesterday, the guest of William Neizer.

B. J. Coyle, of Altoona, Pa., has taken a position at the Pittsburg machine shops. He has been employed at the Fort Wayne iron works for the last few weeks.

S. C. Rohrer, of the electric light works, so the boys say, contemplates moving in the vicinity of the corner of Fairfield and Creighton avenues, in the near future.

August Huckemeyer, of the electric light works, has purchased a bran new bicycle and is now better prepared to make his frequent Sunday calls in the country.

The English built engine, which has been in service for some weeks on the Pennsylvania road proper, and which is run by an English engineer and an English fireman, is to be sent west for a trial.

Receiver McNulta, of the Wabash road, has notified his ticket agents that any agent who receives a commission on the sale of tickets for any road after May 1 will be discharged from the service of the company without delay.

Ed. and W. L. Benedict, conductors on the Pittsburg, Fort Wayne and Chicago railway, have purchased two very desirable building lots, in Reed's addition, on Creighton avenue, and will this fall erect a handsome cottage thereon.

The Olds wheel works have posted up in a conspicuous place, at their establishment, this notice: "This shop will, commencing with Monday, April 22, start up at five minutes before 7 o'clock a. m., and at five minutes before 1 o'clock p. m."

Charley Taylor, machinist at the Bass works, has returned to duty again after a few days' absence. It was generally supposed that Charley had been out fishing, but the fact that no big fish stories have been told leads the boys to suppose that that was not the reason of his vacation.

There has never been a time when locomotives could be purchased at as low figures as now. The fine engines of 105,000 pounds weight, which are being built at the Pittsburg locomotive works, cost but $6,000, against $10,200 three years ago. The new passenger engine of the same make, weighing 91,000 pounds, cost but $8,700.

The Wabash has just completed arrangements with the Michigan Central and New York Central railroads, which will enable it to run through sleepers to New York from St. Louis via Toledo and Niagara Falls at as fast time as is now being made by the Pennsylvania and other short lines between St. Louis and New York. The arrangements will go into effect May 12.

It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

SHE'S A HUMMER!

The above cut represents the HOWARD FURNACE which stands by its construction, advantages over all others. It is the most Scientific Practical an Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace in case of passing directly into the chimney. This furnace will burn over one ton of coal a month in the coldest weather and heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and will allow hot air pipes to be taken from the top instead of the side of the casing as in all other furnaces. The proprietor of the New York livery stable sent a young man out last night, with instructions to look for a horse driven by a party of young fellows who were drinking and abused the animal. The fellow found the horse and was driving off when the man rushed out of a saloon and gave him a sound whipping.

IN MEMORIUM.

The Order of the Funeral Services of Miss Nellie Schrader.

The first of the service was an anthem, rendered by a quartet composed of the Misses Ida Kellogg and Lottie Mendenhall, of Fort Wayne, and Professor Clippinger and Walter Carver, of Chicago. It was most sublime and appropriate, entitled, "I Cannot Always Trace the Way." After this Rev. Van-Slike, of the Berry street Methodist church, offered an earnest, eloquent and touching prayer. After the hymn, entitled, "Asleep in Jesus," Rev. D. C. Woolpert, of the Warsaw Methodist church, read the 90th Psalm.

A chant was then chanted, entitled, "The Circle is Broken," which quickened the sympathizing pulse of the many friends. The sermon, by Rev. D. C. Woolpert, based on the words found in Revelations 21, 1, "And there was no sea," was impressive and well adapted to the subject.

On the conclusion of the service the quartet sang the hymn, "God Be With You Till We Meet Again."

The remains were interred in the Lindenwood cemetery. The pall-bearers were as follows: Messrs. Seaman, Kyle, Miller, Gellett, Leonard and Paris W. Ashcraft.

City Y. M. C. A. Notes.

There were seventy-four baths taken at the City Y. M. C. A. Saturday. They are being well patronized this nice weather.

The meetings are well attended, especially the noonday prayer meeting. Come and take part in them, and see what benefit you will receive spiritually.

Mr. Wyman, a commercial man, lead the noonday prayer meeting to-day. He gave some good points concerning traveling men and their work for Christ.

The World Ought to Know It.

The world ought to know what S. S. S. has done for me in the cure of a malignant cancer, which was so bad as to be considered incurable by the physicians in Chicago, where I went to be treated. The hospital surgeons gave me up, saying they could do nothing for me. One of my neighbors sent me a copy of an advertisement cut from a paper in regard to Swift's Specific, and I began taking it. I got relief from the first few doses; the poison was gradually forced out of my system, and I was soon cured sound and well. It is now ten months since I quit taking S. S. S. and I have had no sign of return of the dreadful disease.
